

# Do what for your future!

Solare Datensysteme GmbH (SDS) and BKW Energie AG are globally successful companies in the field of energy and energy management. SDS focuses on software development for solar monitoring, Smart Energy and feed-in management. BKW holds a leading position in wind energy.

Our vision is to make the digitalization of renewable energy sources a reality. We would like to reach our goal together with you.

## We are looking for a Senior Backend Software Developer (m/f/x) – in Binsdorf /worldwide

### Your Role:

- You will develop a microservice based solution for hundreds of thousands of IoT devices in an agile scrum team
- You work independently, in pair or mob programming to develop new features
- Collaboration in the team on conception, architecture and quality assurance in cooperation with the product owner
- Remotely from home office or from the office, you actively and continuously participate in open online communication with the team
- Openness to new processes, tools, workflows and agile
- 100% home-office possible
- Regular team-events
- Scrum-Events with Scrum-Master
- Flat hierarchies and short distances
- A familiar, international and innovation-friendly environment with open mindset

### Our Offer:

- newest technologies
- High software quality and time for it
- Every two weeks, a Slack Day for product related experiments and personal development
- Further training opportunities, such as seminars, workshops
- A healthy work-life balance: it´s important for us that you feel comfortable

### Your Profile:

- Knowledge in the field of Ubuntu with PhpStrom in Symfony Framework
- Successfully completed studies in computer science or IT specialist in the field of application development or similar training
- Very good knowledge of PHP 7.4 / PHP 8 with sound OOP Skills, or similar languages like Java, Python
- Experience in dealing with ORM (MariaDB/MySQL, MongoDB Cluster, Redis)
- Excellent and fluent English skills complete your profile, cause our main meetings are in English. German is a plus.
- Structured way of working, Teamwork and proactivity. You are passionate and want to change things!

You are a software developer and can´t find yourself here? Contact us! In a conversation, we would like to discuss possibilities in the constantly changing business areas based on your strengths. We look forward to seeing you.
