

Solar-Log WEB Enerest™

Portal for Professionals and End-Customers

The Solar-Log WEB Enerest™ professional portal for installers, portal operators and investors and the Solar-Log WEB Enerest™ Home end-customer portal for plant owners offer endless possibilities. The Solar-Log WEB Enerest™ provides professional PV monitoring for plants of all sizes – from residential to large-scale PV plants.

Solar-Log WEB Enerest™ M, L and XL are tailored to the user's individual requirements. With the Solar-Log WEB Enerest™ Home version, end-customers can monitor their PV plants themselves directly with their own portal. As an alternative, the installers can set up the plant owner's PV plant on their professional portal according to customer's preference. Solar-Log WEB Enerest™ M, L and XL, installers and service providers always have the perfect service package to offer their customers. The selection of M, L or XL depends on the plant size and the desired monitoring functions.

Online Monitoring for Plant Owners, Installers and Portal Operators

Solar-Log WEB Enerest™ M

This solution is simple to implement, provides the basic requirements for PV plant monitoring and is well-suited for private PV plant owners. The basic PV plant monitoring functions can be used free of charge for a plant up to 30 kWp.

Installers and service providers can offer plant owners the option to monitor their PV plant themselves. Errors can be independently evaluated and yields can be displayed, analyzed and compared over a period of weeks, months or years.

As an alternative, the installer and portal operator can offer plant owners the option to use this solution on their professional portal.

Solar-Log WEB Enerest™ L

Solar-Log WEB Enerest™ L is the perfect solution for service providers and technically adept plant owners. There are no limits to the plant sizes and the basic PV plant monitoring functions are available. This option features reference data comparisons, a yield overview with specific yields, the presentation of fixed percentage reductions (x %) and Solar-Log™ Dashboard. It can be used with the end-customer portal Solar-Log WEB Enerest™ Home or with your installer's or portal operator's professional portal.

Solar-Log WEB Enerest™ XL

Installers and service providers can offer plant operators seamless protection for their PV plants with the professional Solar-Log WEB Enerest™ XL package. This solution provides the option to offer service contracts tailored to individual projects and needs of the plant operators.

In addition to the benefits listed for Solar-Log WEB Enerest™ L, this solution offers advanced functions such as user-defined reports with an unlimited number of automatic reports, special graphics, and presentations.
