

Do it for
your future!

We are the globally successful Solar-Log GmbH and BKW Energie AG, an internationally active energy company based in Switzerland. Solar-Log GmbH's expertise lies in software development for solar monitoring, smart energy and feed-in management, while BKW offers total solutions in the areas of energy, buildings and infrastructure.

Our vision is to make the digitalisation of renewable energy sources a reality. Together with you, we would like to achieve our goal

To strengthen our team we are looking for a:
Senior Backend Software Developer (Symfony, PHP 8) – 100% Remote (m/f/d)

Your tasks

- Design, development and optimisation of sophisticated event-driven microservice architectures based on Symfony 6+ and PHP 8
- Design and further development of modern REST API architectures
- Taking responsibility for code quality, testing and architectural decisions
- Active participation in pair programming and code reviews to share knowledge and ensure quality
- Working in an agile environment (Scrum/Kanban) – with a focus on iteration, feedback and continuous improvement
- Close collaboration with DevSecOps, front-end and product owners
- Ensuring clean code, high test coverage and sustainable software quality

Your profile

- At least 5 years of experience in professional software development with Symfony
- Deep understanding of object-oriented programming, design patterns and software architecture
- Confident use of Doctrine ORM, Composer, dependency injection and event-based architectures
- Experience with unit and integration testing
- Knowledge of CI/CD, containerisation (Docker) and modern deployment processes
- Very good knowledge of English (working and documentation language is English)
- High degree of personal responsibility, precision and quality awareness
- Remote working is second nature to you – you communicate clearly, in a structured manner and reliably.

Our offer

- Remote-Work
- an innovation-friendly environment that enables professional development
- an internationally operating group of companies in which you can actively shape the success of the project
- an exciting and independent job in a dynamic team
- an appealing and modern working environment
- Flat hierarchies with a familiar „you“ culture
- Additional benefits such as corporate benefits and much more

Have we aroused your interest?
