

Do it for  
your future!

We are the globally successful Solar-Log GmbH and BKW Energie AG, an internationally active energy company based in Switzerland. The expertise of Solar-Log GmbH lies in the area of software development for solar monitoring, smart energy and feed-in management.

We develop a complex, highly scalable web application using state-of-the-art technologies. Quality, architecture and sustainable solutions are more important to us than short-term quick wins. We are therefore looking for an experienced Senior Frontend Software Developer with in-depth Angular know-how to drive our applications forward technically and act as a sparring partner for architectures and best practices.

To strengthen our team we are looking for a:

## **Senior Frontend Software Developer (m/f/d) - Angular**

**Location:** 100 % remote, few face-to-face appointments • **Employment:** Full-time, unlimited

### **Your tasks**

- Development of complex front-end applications with Angular (current major versions)
- Collaboration on the design and architecture of scalable, maintainable solutions
- Close cooperation with UX/UI design, backend and product owners in the implementation of sophisticated features
- Active role in code reviews, pair programming and technical discussions
- Ensuring performance, testing and security
- Ensuring high-quality standards in the code. Supporting the team in improving the overall quality of the product even further
- Collaboration on the front-end strategy and technology roadmap

### **Your profile**

- At least 5-7 years of experience in front-end development, including at least 3 years with Angular in complex projects
- Very good knowledge of TypeScript, RxJS, reactive programming and state management libraries (NgRx or comparable)
- Confident in using testing frameworks (Jest, Cypress or similar)
- Deep understanding of module and component architectures, dependency injection and Angular lifecycle
- Experience with CI/CD processes and Git workflows
- Team player with a high level of personal responsibility and clear communication skills
- Fluent English and good German

### **What we offer**

- Remote work & flexible working hours - for maximum freedom & focus
- 30 days vacation - for the right balance
- Free supplementary company health insurance - for your health
- E-charging stations with green electricity - because we are serious about sustainability
- Familiar, international environment - with short decision-making processes and plenty of creative freedom
- Language courses, further training & strong employee development
- JobRad leasing, corporate benefits, company pension scheme & capital-forming benefits
- And above all: a future-proof job with meaning

### **Have we aroused your interest?**

We would like to get to know you! Please send your application documents by e-mail to:
