

Do it for your future!

We are the globally successful Solar-Log GmbH and BKW Energie AG, an internationally active energy company based in Switzerland. Solar-Log GmbH's expertise lies in software development for solar monitoring, smart energy and feed-in management, while BKW offers total solutions in the areas of energy, buildings and infrastructure.

Our vision is to make the digitalisation of renewable energy sources a reality. Together with you, we would like to achieve our goal.

To strengthen our support department, we are looking for a: Student trainee in Software Testing (m/f/d)

Your tasks

- Manual software testing of our web and embedded products
- Carrying out regression tests using our automation framework
- High level of personal responsibility and teamwork
- Agile working in the Scrum environment
- Ensuring high software quality through communication and coordination with the product owner and the development department

You bring along

- You are studying with a focus on computer science, engineering or natural sciences
- You have analytical thinking and conceptual strength
- You enjoy uncovering errors in order to contribute to the improvement of software quality
- You have very good German and English skills
- You have knowledge of scripting languages such as Python, Bash, PHP
- You have knowledge in the use of JIRA / Confluence / Bitbucket / Jenkins and other tools

We offer you

- Varied activities: Valuable practical experience in an industry of the future
- Flexible working hours: Workdays, up to 20 h/week
- Atmosphere: Friendly and collegial interaction and a flat hierarchy
- Cohesion: Successes are celebrated together, whether at summer parties or Christmas parties.

Have we aroused your interest?
